Cong. Davis Visits Grayling

By Joe Schrader

At a Saturday morning breakfast meeting held at the Holiday Inn here in Grayling, Robert Davis, U.S. Congressman representing the 11th Congressional District, met with a group of interested citizens to discuss his role in national government as he sees it at this point.

He was accompanied on his Grayling visit by Charles P. Goddard, Assistant to Davis, who operates an office out of Gaylord.

Davis was on a whirlwind fling through his congressional district and pointed out that his 17-member Washington, D.C. staff includes twelve from Michigan's congressional district, all familiar with the problems of the area. Davis represents the 6th largest District in the United States.

As a matter of interest, he indicated his Washington office fields an average of 750 letters a week. Davis has been appointed to a number of congressional committees including the National Science & Technology Committee which analyzes and approves funding requests for applying agencies throughout the nation.

Prior to adjourning the breakfast meeting, Congressman Davis fielded a number of questions from his audience, many of which involved the energy crunch.

Area Census Underway

Kirtland Warbler Population Remains Stable

By Joe Schrader
CCA Staff Writer

The Kirtland Warbler population this year is expected to be about the same as last year, this prediction based on preliminary results from a census now underway by the Dept. of Natural Resources, U.S. Forest Service, U.S. Fish & Wildlife Service, the Audubon Society and other private citizens.

Last year, 197 singing males were counted throughout the United States and Canada, 33% of which were located here in the Crawford County area. (81 in all here).

Ray Perez, Wildlife Biologist here in Grayling, is responsible for conducting the area census and last week invited this reporter to accompany him and his crew on a census count in the Fletcher Road restricted area in Kalkaska County. Participating in last week's survey were Don

Smock and Tom Carlson of the D.N.R. and Dr. Ted Black, a noted ornithologist from Lansing. The Kirtland warbler is an endangered species whose population has dropped from 1000 pairs in the early '60s to its current level of about 200. Despite the fact warbler

nest produce 2-4 birds per year, no apparent reason is known for the lack of population increase. "We just don't know why the population has remained so stable," said Perez following the recent survey, "we had 201 pairs of birds in 1971 and it looks like it'll be about the same

this year." The search for the elusive warblers in this area involves a survey of six "active locations." Two of the most populous areas are in Lovells and at Buck's Crossing on Stephan Bridge Road. The Fletcher Road county produced an

Car-Truck Crash Injures 2

By Joe Schrader

A car-truck collision occurring at about 12:15 p.m. on the south I-75 business loop in front of the Holiday Inn last Friday resulted in personal injury to both occupants of the car and its complete demolition.

According to City Police Chief, a car driven by Susan Smith of Stockbridge, Michigan, collided with a commercial truck owned by Millikin Construction Co. driven by

Brian Pratt, 24, Grayling. He was not injured.

Susan Smith was transported to Mercy Hospital by the Volunteer ambulance corps where she was treated for multiple contusions and lacerations and released. The other car occupant, Kathleen Shirey, Stockton, Mi., was removed from the vehicle through the efforts of the City of Grayling and Township fire dept. members while the volunteer

firemen used the "Jaws of Life" to assist. She was also transported to Mercy Hospital where she received preliminary treatment and then was transferred to Sparrow Hospital in Lansing.

The accident is still under investigation by city police officials. Shown in the picture is the condition of the car following the accident while firemen and other volunteers assist in cleanup work.

Special to the Avalanche

More than 6,000 members of the Michigan Army National Guard are at the Camp Grayling Military Reservation for two weeks of annual training beginning June 16.

According to General Charles E. Lamoreaux, Commander of Troops, the main objective this year is to raise the training level of individual Guardsmen and women. As individual members become more skilled in their specific areas, he said, the overall readiness of each unit is increased.

Units at the military reservation come from cities and towns all over Michigan. The units include the 126 Band from Wyoming, Engineer units from the Upper Peninsula, the 277 Military Police Group, the 72 Support Brigade and many others.

Most units present will be conducting a four-day, three-night tactical training exercise in the fields and forests outside the Main Camp.

Regular Army personnel are on hand to evaluate the See Wolverine on Page 16

Unwelcome Visitor

Sunday morning about 1:30 Mrs. Earl Madsen and daughter Pat, of Wakeley Bridge Rd, down River, were rudely awakened by a huge black bear tearing a section of their screened front porch out, breaking several flower pots, and setting up quite a racket.

He walked the length of the porch, left his muddy footprints on the clothes dryer, then got frightened, and left, taking out another section of screen. It walked around the house, and wasn't afraid when they knocked on the window, and finally ambled down the creek and disappeared into the swamp.

Needless to say, the Madsens sat up the rest of the night.

Warning

"Range firing will be conducted by units of Michigan Army and Air National Guard during the period 20-30 June 1979. Small arms, demolitions, mortars, tanks, field artillery, high performance fighter aircraft will be firing on the ranges located at Camp Grayling during this period.

The ranges will be closed during the above dates and all persons are warned to stay out of the range areas."

For Parents: Where Do Parents Come From?

By Bill Morford-Instructor
First of a series of articles discussing skills for effective parenting. A discussion group for parents, sponsored by the Department of Social Services, will be held each Monday evening from 7:30 to 9:30 at the Holiday Inn in Grayling. The topics discussed in this series of articles will also be the topics of discussion at the Monday meetings. All parents are welcome to attend one or more of these sessions.

Where did you learn to be a parent? Researchers have found that most of us learn to be parents from our own parents. In other words we are quite likely to raise our children in much the same way that our parents raised us.

Today many people are asking if adults are prepared well enough to take on the responsibility of parenthood. There is a growing sense of the need to learn skills which will assist adults in their efforts to be good parents.

Effective parenting does not begin with knowing "how" to use parenting skills. It begins with the attitude we adults have

From Our Corner ...

If there are any lies come out of our old Smith-Corona tonight we are not responsible...this young fella was lead astray on the night that we normally bring out all our smarts for our readers...

Monday night, in conjunction with the Grayling State Bank and the Chamber of Commerce, Grayling entertained the Michigan National Guard V.I.P. command at a reception at the Grayling Country Club.

We planned on just going over to the club for an hour, meet a few old friends...tell a couple lies and get back to the salt mine...didn't work that way...

After a few words with General Johnston, we figured we were in for another year...when we were young we were told...it doesn't matter how you fare at a gathering...just make sure the top man knew you showed up...we made our humble respects to a man that has taken over for another man we respected...Gen. Schnipe...

To Gen. John Johnston, welcome back to Camp Grayling for another summer training from our corner...

One day last week we were down to our favorite watering hole...and would you believe, in walked Spike and Ruby MacNeven...now for all you new comers to the area...Spike may not be anyone you would connect with a bar...so to enlighten our readers his name along with the Keg O'Nails was universal back in the 30's and 40's...in fact we can attest while we were in Korea, a fella asked, seeing as how you're from Michigan, how far are you from the Keg O'Nails?

With that little introduction to one of a few promoters of Grayling...Spike knew, what helps me, helps Crawford County...

Anyhow, Spike, one of our readers out in Arizona during the time we are freezing, gave us an idea for the corner when we were groping for something to fill it...

So, we will go back to the time before TV. That may be hard for a few of our readers to comprehend...but there was a day when there was but one TV in town...you guessed it, Spike had it.

Spike remarked he reads the corner and often wondered when we were trying to come up with something to write, why we didn't look back into the good old days?

With thanks to Spike, for his help in trying to fill this turkey tonight, we are going to reminisce for a bit...

Seems as how a few years back, and we were still in the same shack we reside in now, our neighbor was Clyde and Nad Peterson, and grandma MacNeven, there was very little to do in the evenings except curse the heat and listen to the boxing matches on the radio...

Spike took care of that, he had one of those things you could see what was happening...

Being home bodies as Clyde and we were, in order to get out in the evening we needed a special invitation or our spouses would think we were out tillie-fla-ing...

Spike, also took care of that...he sent both of us telegrams, via Floyd Davis, then Mr. Western Union in Grayling, announcing that Friday Night was fight night at Spikes (only via TV)...

Spike also brought up a few other memories that may help in filling the corner another day.

Fathers Day?...we are most happy you are concerned how the ole fella enjoyed it...seeing as how you really didn't ask...we would like to insert here we were in Gaylord Saturday evening (that's a town we remember a number of years ago) to attend a wedding of our grand-niece, Gayle Quay, with our TC family.

Sunday was beautiful...that cold wind didn't touch us on the couch, where we relaxed, and enjoyed T.J., Stef, and their pony cavorting in the living room...to top the day, we heard from our Nevada family that they are settled and Amber is doing fine...

Have a nice weekend...

George Dickson, whose home is in Bay City, an employee of R. Hanson & Sons, fell 18 feet from a lumber pile Thursday morning, breaking his right leg just above the ankle.

O.P. Schumann of Grand Rapids, who represents the Inland Type Foundry of Chicago, was a welcome guest at the editorial home over Sunday, and following his visit will come a new series of advertising and job type for the Avalanche.

George Alexander was down the river the first of the week with R.H. L'Hommiedieu, General manager and Mr. Russell, Attorney of the M.C.R.R. as his guests. They found plenty of heat, enough mosquitoes and sufficient fish so that all were satisfied.

James Sewell, one of the pioneers of Center Plains township of this county, now residing in Cleveland, Ohio, is waiting here with his sisters, Mesdames Peck, Bates and Schriver.

The Bible Speaks

From Calvary Baptist Church

GALATIANS
1:1-5

Today begins the first in a series of verse by verse studies of the book of Galatians. If you faithfully study your Bible during this study time, you will find that your understanding and appreciation of the gospel of Jesus Christ will grow abundantly. The apostle Paul will systematically show us how he corrected the perversion of the gospel among the churches of Galatia. Would to God the Holy Spirit would use these same verses to correct the perversion of the gospel among the churches of Grayling.

"Paul, an apostle, (not of men, neither by man, but by Jesus Christ, and God the Father, who raised him from the dead); And all the brethren which are with me, unto the churches of Galatia: Grace be to you and peace from God the Father, and from our Lord Jesus Christ. Who gave himself for our sins, that he might deliver us from this present evil world, according to the will of God and our Father: To whom be glory for ever and ever. Amen."

Gal 1:1-5
The human author God used to pen this epistle was Paul. His office was an apostle or sent one with a special message. The authority behind Paul's office is plain. God made him an apostle, not man. Paul is not the only one to believe the message of this epistle. All the brethren with him believe the same thing.

The recipients of this epistle were the churches of Galatia. This must bother many people in the 20th century who no longer find any necessity for attending a local church. Anyone who sinned by not attending a local church in Galatia, would have missed this important message from God. People today in Grayling who refuse to attend a Bible teaching, Bible preaching church will answer to God for the sins of ignorance of His Holy Word when they face Him face to face.

The greeting is customary, beginning with God's Grace or unmerited favor toward us, and the resulting peace which it produces within our hearts. It is this grace that assures us we are saved. "For by grace are ye saved through faith; and that not of yourselves; it is the gift of God: Not of works, lest any man should boast." Eph 2:8, 9. Faith is that channel of communication whereby God makes His grace available to reach our individual hearts and lives.

In verse 4 the simple details of

our salvation are clearly revealed. It was the Lord Jesus Christ Who gave himself for our sins. My friend if you are not trusting the work of Jesus Christ on the cross dying for your sins, then He is not your Savior and you are not saved. Notice, He did not die for our sins so that we may continue to practice our sins, but "that he might deliver us from this present evil world." This is not according to some human interpretation of the Bible, but "according to the will of God and our Father."

With this great introduction Paul closes with an appropriate doxology: To whom be glory for ever and ever. Amen. Verse 5. The Father willed it, the Son fulfilled it, the Holy Spirit applied it, I believed it, and that settles it!! To God be the Glory!! (adv.)

RICHARD MILLIMAN

As the first holiday weekend of 1979 got underway, the huge jet lumbered down the runway at O'Hare Field in Chicago. Without warning, one of its three engines somehow became disattached, and the plane, like a giant, one-winged bird, plunged to the ground.

It was the worst air disaster in United States history; everyone on the plane, passengers and crew, was killed, as well as several uninvolved individuals on the ground—some 274 persons in all.

The world was shocked, rightfully so. Federal investigate teams converged on Chicago, as the cleanup crews picked through the grisly debris.

Steps were taken to protect other airliners and other passengers and crews. All DC-10 models on all domestic airlines were ordered to the ground, and held there until cleared by intense inspection.

These were proper steps, and well accepted by the airlines and the public as well.

Eventually, reports will be issued. Possibly longer-term corrective steps will be taken. Perhaps mechanical changes will be recommended in the design of the DC-10, or perhaps in the functioning of all models of that huge jumbo jet now in service.

Whatever comes out of the investigations, the corrective measures likely will be embraced by all concerned, even though they may be difficult to implement and expensive, too. After all, human life is involved. After all, 274 persons were killed in the Chicago crash, perhaps unnecessarily.

All of these events have been properly chronicled in the nation's press. The air tragedy on the Friday which began the long Memorial Day weekend has received considerable public exposure, and properly so.

Meanwhile, in some other quarters of this nation a few days after the crash, congratulations seemed in order.

The National Safety Council had predicted between 500 and 600 individuals would be killed in auto accidents over the Memorial Day weekend.

Instead, only 440 persons died on the

highway. Hurrah!!!

Even that face was in the fifth paragraph of the Associated Press roundup of holiday weekend activities—which is an accurate reflection of the concern most people exhibit about traffic accidents.

Sometimes you have to wonder: In Chicago, 274 died. Investigations flourished...planes were grounded and inspected...corrections undoubtedly will be ordered...in short, something is done about it.

On the highways, 440 died. That rates the fifth paragraph of a holiday roundup...and that's all.

It makes you wonder.

Sen. S.I. Hayakawa of California seems bent on nudging into political folklore.

The conservative Republican is rather flamboyant in some of his campaigning, affecting a tam-o-shanter for headgear on occasion, for example. He's also becoming known for his proclivity to snooze during speeches, debates and other public occasions.

Now comes what could turn out to become his key to lasting fame. Sen. Hayakawa has an answer to the gasoline shortage: Let the price rise until it reaches a level which reduces the number of buyers willing to pay the price.

In itself, that's not a novel approach; it's a fairly common application of the general rules of the marketplace. Sen. Hayakawa feels if gas prices hit \$2 or even \$3 a gallon, the wealthy could still afford to buy, but the poor would be discouraged, thereby making enough gas available for those who want it.

"The important thing is a lot of the poor don't need gas because they're not working," Sen. Hayakawa said.

His comments, naturally, were likened to the famous line attributed to Marie Antoinette, when she was asked how the poor would get enough bread to eat... "let them eat cake."

Sen. Hayakawa will achieve political legend all right, in my view. If he doesn't achieve immortality by his public snoozes, his attitudes on social economics will get him there.

Cathy Marie Peterson and Gregory Stankus were united in marriage on Sunday, June 3, 1979 at Reorganized Church of Jesus Christ of Latter Day Saints.

Elder John H. Peterson, the bride's father, officiated at the 4:30 p.m. ceremony, with 28 guests present. Music for the ceremony was provided by Patricia Fowler.

The bride's parents are John and Nila Peterson of Grayling, and the groom's parents are Leon and Mildred Stankus of Grand Rapids.

The bride was attired in a white satin and lace gown with train and wore a veil of white net with trailing white satin flowers. She carried a bouquet of babies breath, yellow and peach sweetheart roses accented with trailing ivy.

Her attendant was Hope L. Pearse of Grand Rapids, she was attired in a yellow gown and carried a bouquet of babies breath

and long stem yellow and peach roses.

The groom's attendant was Frederick A. Stankus of Grand Rapids.

After the ceremony a dinner was held for the bridal party at the Chief Shoppenagon's Motor Hotel.

The bride's mother wore a yellow dress and wore a corsage of white baby carnations and red sweetheart rose. The groom's mother was attired in a pink and gray print dress and her corsage was of white baby carnations and yellow sweetheart rose.

The couple will reside in Grand Rapids.

Out of town guests were from Grand Rapids, Detroit, Houghton Lake and Cheyenne, Wyoming.

Cindi Carlson Shepler of Petoskey was awarded an Associate of Arts Degree from North Central Michigan College on June 8, 1979. The ceremonies were held at 8 p.m. in the Petoskey Middle School Auditorium with the president of Ferris State College as the guest speaker. There were 145 graduates and Cindi was one of 39 students who graduated with honors. Attending the graduation were her parents, Mr. and Mrs. Arthur Carson and brother, Richard, and Amber and Corey Meech of Grayling, her sisters, Mrs. Christine Olson and children of Lawton and Rod and Julie Powers of Hart.

Following graduation there was a reception at North Central Michigan College.

THOUGHT FOR FOOD

By GUILD CROOK

Chicken London
Chicken continues to be a favorite food and fortunately less expensive than beef and other meats. There is no limit to the variety of ways to prepare chicken and the following recipe is both simple and delicious.

You can use breasts, legs and second joints. However, I make it with breasts only and remove the skin. I'll give you the recipe using 24 pieces of chicken — but often make it with less and reduce the rest of the ingredients accordingly. A good party main dish!

24 pieces of chicken
Enough butter to brown chicken

¾ pound sliced mushrooms — you can use canned

2 cans creamed chicken soup (cream of)

1 can cream of mushroom soup

sherry or white wine

to taste — about ¼ cup

Brown chicken in butter, then brown mushrooms if using fresh ones. Place chicken in large casserole. Mix the soups (undiluted) and pour over the chicken. Place mushrooms on top. When ready to bake, add wine. Cover the casserole and bake at 350° for 1½ hours. This serves 12.

Spelling Bee Winners

The fourth grade of the Grayling Elementary School held their annual Spelling Bee on Wednesday afternoon, June 6, 1979. Tammy Welch, daughter of Mr. and Mrs. Aubrey Welch, came out the victor downing John Meagher, son of Mr. and Mrs. Chuck Meagher, as the runner-up.

Tammy, looking very composed, spelled out her words in a clear, decisive manner, seldom wavering. She did an outstanding job. She is shown center front holding the dictionary that she won. Flanking her are Todd Klinger, Mr. Hayes' class, John Meagher from Mrs. McEvers' class, David Somerville from Mrs. Bovee's class, and Marie Stephan from Mrs. Akers' room, the last four standing from their classes.

Mrs. Katie Funck was again on hand to pronounce the words. Although retired as a fourth grade teacher, she comes back every year to participate in this special occasion. All the students received certificates showing their participation in this event. Third graders were guests of the fourth grade as part of the audience and are eagerly awaiting next year's spelling bee.

Also pictured are the rest of the sixteen students who took part: from left, Betsy Burns, David Reichelderfer, Yvonne Moshier, Allen

Morford, Erin Hickey, Jennifer Ojala, Catherine Kraus, Crystal Herdon, Patty Walsh, Laura McKinnon, and Sherry Jensen. (Fay Bovee photo).

The opening ceremonies for the fourth and fifth grades were held at 9:25 a.m. and the preliminaries began at 9:30. All events were divided into four categories, 4th grade boys and 4th grade girls, 5th grade boys and 5th grade girls. All students participated in three events. Events in the prelims in the morning were the 25-yard dash, 50-yard dash, 60-yard dash, and tag relay in the track events. In the field events there was the softball throw, the sack race, the 3-legged race, the jump-rope race and the wheel barrow. The broad jump was run on a continuous basis while other events were going on.

After the lunch break from 11:30 to 12:25, the afternoon session began the finals, finishing up with the "staff suitcase race" with a questionable winner! The staff also entertained with a sack race.

No prizes were given for individual events but six all around good sportsmanship awards were presented to one student from each classroom. Pictured with their trophies are left Shirley Krajanka, from Mrs. Hayes' class; Dennis Mansfield from Mr. Brigham's; Patti Hatfield, from Miss Wargo's;

Loriann Pfaff from Mr. Brengles; Faith Johnson from Mrs. Akers'; Pam Lange from Mrs. McEvers; and Carmen Weaver from Mrs. Bovee's.

The final tribute before the students left for their classrooms were some rousing cheers for the day and for Miss Lisa Eaton, who supervised and organized the event and who is also leaving this school system to return to graduate school.

Besides the fourth and fifth grade teachers who helped were Mrs. Marianne Knepp and Mrs. Peg Emerick. (Fay Bovee Photo)

CHIMNEY SWEEPS

What's It Like To Have A Chimney Fire?

It's no fun. If it doesn't burn the house down, it will probably wreck your chimney and scare you half to death. Here's how it happens.

Begin with one dirty chimney—let's say a fireplace not cleaned for a couple of years. The soot lining the chimney flue is saturated with flammable stuff called creosote. (More detail on creosote is available in any dictionary.) It doesn't take much to ignite creosote—a newspaper fire sending flames up to the damper is enough.

Once kindled, creosote burns with joyous abandon. In a matter of seconds the fire spreads up through the flue creating a draft that only helps things along. At this point your average chimney fire begins to roar and howl, sending the occupants of the house running for cover.

If you run, you'll be treated to a real fireworks show. As the creosote fire builds and intensifies the heat melts the mortar between the brick. The red-hot mortar actually drips into the flue, only to be caught up in the tremendous updraft, and these little fire balls shoot out the chimney and onto the roof. If you're lucky, the chimney will fall apart destroying one end of the building—if you're not, this miniature volcano can bring the whole house down.

However, if you stand your ground, a chimney fire can be controlled. Put out the fire in the fireplace with an extinguisher or sand. Cover the opening with a wet blanket, call the fire department, and hope for the best. But it should be pointed out that having your chimney cleaned is a lot easier on the nerves than the sand and wet blanket method.

Completes Navy Course

Navy Electronics Technician Seaman James E. Parker, whose wife, Carolyn, is the daughter of Carol Adkinson of Grayling, has completed the Navy's Basic Electricity/Electronics Course.

Four weeks of study at Navy Service School Command, Orlando, Fla., included review of basic Mathematics, fundamental electrical formulas plus the principles of alternating and direct current circuits. Students also received instruction on basic circuit testing methods, including the use of multimeters and audio signal generators.

He joined the Navy in January 1979.

by Joe Schrader

Groundbreaking is expected sometime in July for the Mt. Hope Lutheran Church's new worship facility north of town at the Old-27, Airport intersection.

According to Pastor Paul Weber, the deed to the property was received June 8th. Membership in the church has increased rapidly over the past several years and the congregation felt that a larger facility was needed and the search started for a suitable site about 2 1/2 years ago. Preston Slack has been in charge of the site selection and has worked diligently to arranged the purchase of the 13 plus acre property at the Old-27, Airport Road junction.

The style and size of the new church building has been approved by the membership and the congregation is looking forward to a church opening sometime around the first of the year. Paul Gorten is Chairman of the Building Committee.

Pastor Weber indicated

that a contractor will be selected shortly but that church members will take care of clearing and landscaping of the property.

A recently-conducted Program of Progress Campaign conducted by the congregation was extremely successful in raising needed funds for the building project.

A group of Mt. Hope congregation members are shown in the photo inspecting the new building site, with the gathering shown here in what will be the Sunday School Dept. (Joe Schrader photo)

Just Missed
"What's this all about?" an American tourist asked the guide when the bus pulled into Runnymede, England.

"This is where they signed the Magna Carta," the guide replied.

"When?"

"1215."

After looking at his watch, the American turned to his wife and observed: "We just missed it by 45 minutes."

New Business
Mr. Klein presented a proposal for transfer of Grayling Cable TV Franchise to Mr. George E. Baldwin. Mr. Morford reported that Mr. Baldwin had approached Council two years ago and that Council had approved such a transfer at that time. Later the transfer did not materialize. Mr. Klein stated that in operating from Greenville he has a great deal of trouble in overseeing the company, while Mr. Baldwin has a place only six miles from Grayling and would be able to give a good deal more attention to the business. Mr. Baldwin said that he spends about four days per week in the Grayling area. Several questions were asked about possible expansion.

Motion by Thompson, supported by Westervelt that the transfer of Grayling Cable TV to Grayling Cable TV, Inc. be approved as requested by Mr. George E. Baldwin subject to approval of the form of the documents by the City Attorney. Ayes: 5, Nays: 0, motion carried.

Old Business
Mr. McEvers opened the Public Hearing on the 1979-80 budget. No citizens appeared to ask questions about the budget. Council discussed the proposal at length.

Motion by McEvers, supported by Westervelt that amendments to the budget in amount of \$20,000.00 be added for an industrial consultant, also that first year expenditure for a street sweeper be reduced to \$10,000.00, that the Chamber of Commerce dues be increased to \$2,310.00 and that the Summer Recreation Program contribution be increased to \$750.00. Ayes: 5, Nays: 0, motion carried.

Motion by McEvers, supported by Westervelt that the proposed budget be adopted as amended and setting the millage rate at 14.0 mills operating and .5 mills debt retirement. Ayes: 5, Nays: 0, motion carried.

The City Manager reported on the status of the annexation proposal. He will attend a Boundary Commission meeting in Lansing on June 12, 1979 relative to this issue.

New Business
Renewal of the lease with Crawford County for space in the Municipal Garage was discussed. Mr. Morford stated that while we have need for the space, he felt that we could renew the lease if the County were unable to find space anywhere else. There is a drama to surgery unequalled by almost anything else. This really is life and death, and sometimes the balance is incredibly slight.

The operating room team is highly trained, the surgeon is supremely skilled. His hands are a marvel to watch, his technique flawless. Yet no one knows better than he that, in this critical moment, there is a much higher authority involved.

Before he entered the room he paused for a moment, in silent prayer. He asked for God's guidance, as he always does. His patient is now in two sets of hands; one human, one divine.

Have you ever stopped to think how many people who do important things are regular churchgoers? They have realized, long since, the need to go beyond themselves.

Par For The Course

MABEL GOTHRO SCORES HOLE-IN-1.

We present to you a very special lady this week—Mabel Gothro, who sunk a hole-in-one on Wednesday morning, June 13. Hitting it with a four-wood she watched it hit the sand trap and because of the early morning sun could no longer see where it rolled. On arriving on the green the threesome of June Schwarz, Ann DuBois and Mabel looked for the ball and not finding it decided to look in the cup. Not seeing it go in took some of the thrill out of it Mabel commented. Back in the clubhouse she was "queen for the day" and also the recipient of the bar bill! To my knowledge she's the first woman golfer to score a hole-in-1 on our course, or at least the first one in the memory of any of the present golfers.

She'll be presented with a birdie pin since there were no provisions in the Wednesday league for a hole-in-one. In other play Corrine Smith took low gross in A flight with a 43, Mabel, Dottie Brady, Betty Layman and Corrine had a few net of 34 and Fay Bovee had 13 putts. In B, Mary Sidwell had low gross of 51, and low net of 32, and Faith Stripe had 14 putts. In C, Phyllis Scheer had low gross of 55, Evelyn Gardiner had a low net of 31 and Phyllis had low putts of 15.

Flight B served the potluck luncheon. Following lunch, Dorothy Phillips presided at a short business meeting and Doris Harland and Donna Denton took care of the raffish.

The Gaylord women have accepted the invitation to participate in Gaylord Day on July 18.

The Monday Ladies Fun League had a good evening for play on June 11, 1979, with prizes going to the following: Maxine Dierich chipped one in on number 6 from 70 yards out; Diane Branch had low

putts of 16, Betty Layman had low gross of 52; Jackie Norman took high on holes 3, 6, and 9, and Maxine Dierich took low on holes 3, 6, and 9.

In a business meeting conducted by Pauline Petrosky, president, some changes were made in the Monday league. They will be playing both at 10 a.m. and 4 p.m. with both times counting for eligibility for prizes at the evening meeting. The second Monday of the month is steak night and the fourth Monday of the month will be potluck night.

For the Potluck on Monday, June 25, the women are reminded to bring their table service.

The Thursday night Chippers and Putters had a good turnout to golf and dinner and nice weather for golfing. Since there are not weekly prizes in that league, we won't have any to report until the end of the season.

In Saturday play, Tom St. Germain had a 37 (he told me!) and beat the boys!!

Mark your calendar—July 1, for the PIG ROAST. Watch for more details on this event. Our cook, Bill Denton is getting his drum all ready!

Counties Share Marine Safety State Monies

Lansing—State Senator Mitch Irwin (D-Sault Ste. Marie) announced that several counties in northern Michigan will receive state reimbursement for Marine Safety Programs conducted during calendar year 1978.

"Because of the enormous number of rivers, lakes and streams in the north country, it is absolutely essential for our counties to continue providing these educational Marine Safety Programs for the people," Irwin said. "The Department's approval of these expenditures is a tribute to the local county officials who so efficiently carry out the Marine Safety Programs."

State law designates the Department of Natural Resources to reimburse the counties in an amount equal to two-thirds of the authorized and approved expenditures in an amount equal to two-thirds of the authorized and approved expenditures of their Marine Safety Program. The county programs are conducted on a calendar year basis reimbursement is made prior to July 1 of the following area counties receiving reimbursements include: Crawford 17,441.05; Otsego 3,336.14; Antrim 11,015.00; Montmorency 4,593.75.

CARD OF THANKS

We would like to thank everyone who helped our family during the time Margaret Phillion was in the hospital and after her death.

There were so many, it is impossible to name them all.

The nurses, who were so kind and gentle with both she and us. The doctors, who did everything they could possibly do. The clergymen, who shared their faith with us. The funeral director and his staff, who made it less painful for the family and friends. The Frederic Hobby Club, who served the lovely dinner for the family and friends. Also we want to thank all the friends and neighbors for the cards, flowers, and other offerings. All of these people and the things they said and did helped us so very much.

There are two people we want to again give our special thanks to. They are Dr. Burkley and Father Dawson. No one could have done more.

Margaret fought hard to live, and Dr. Burkley did everything in his power to help her achieve this. Finally, the long fight was over, and she left us to live forever with the Lord.

During all this time, Father Dawson was with Margaret and us. He was with her through it all. His prayers and words of comfort made it possible for us to accept it all. It would have been almost impossible without him. After the funeral service, many friends, as well as relatives, told us how much Father Dawson eased their sorrow.

Once again, we thank each and everyone of you.

Husband and Daughter,
Lowell Phillion

It was announced that Loren J. Goodale, who is a member of the Boy Scout Troop sponsored by the Kiwanis Club will be inducted as an Eagle Scout at a Court of Honor to be held July 1st at 3:00 p.m. at the Michelson Memorial United Methodist Church.

The next meeting of the Grayling Kiwanis Club will be Monday, June 25th at 12:10 p.m.

D.N.R. WILDLIFE GAME BIOLOGIST Ray Perez (center) is shown assigning Kirtland Warbler survey areas to Don Smock (left), D.N.R. Wildlife Technologist and Dr. Ted Black, noted Lansing ornithologist. Also participating was Tom Carlson of Atlanta. (Joe Schrader photos)

Kirtland

increase of 5 birds so far, from 16 last year to 21 noted in the area this year.

The search is tedious and persevering. Another important factor is the ability to recognize the sound of a singing male trying to attract a mate. (The ability to plunge through thick jackpine over mile-long strips also helps as this reporter sorely confesses).

Team members are assigned survey areas and strike out, hoping, as they stop and listen every 30 yards or so, to hear the sound of a male warbler attracting a mate. The sound is unique and not unlike other warbler bird music. But those who are familiar know when one is heard and the location is carefully plotted. Surveyors last year located 81 birds in this area nesting in the jackpine areas they prefer to occupy, reside and establish as "their territory". Researchers assume a male is accompanied by a neighboring female.

The warblers, verging on the extinct list, migrate to the Bahamas for the winter, leaving here after raising their young, sometime around mid-August. Perez said they return here early in May to nest in the jackpines to raise their young.

Perez indicated that while state officials are responsible for the population count, a number of interested private citizens are also involved in the census, one of whom is Dr. Black who helped in the Fletcher warbler hunt.

Although a final bird count is still undetermined, it appears it'll be about the same as last year, some 200 pairs.

It's a tedious and time-consuming task, but important enough to conduct on an annual basis. Other warblers have been located in Oscoda, Ogemaw and Roscommon counties, but their predominance in northern Michigan is in the Crawford County area.

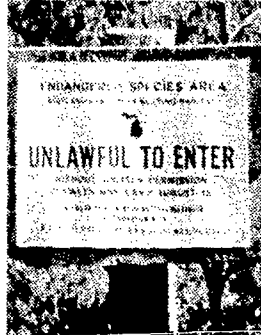

Male Kirtland warblers have been known to have two "wives" during the mating season and defend their territories by loud and persistent singing.

The D.N.R. and other agencies involved in the warbler search go out early on a morning conducive to a trek through the thick jackpine in which the birds choose to reside.

This is a statement summarizing the activity of the unusual bird prepared by Harold Mayfield in 1960: "In summary, the nesting requirements of the Kirtland Warbler may be described as follows: extensive stands of small coniferous trees, growing thickly enough for the branches, to interlace, but interspersed with generous openings; the trees must have live foliage reaching down to the ground cover; the ground cover must be short but, at least in places, fairly thick; and the soil must be dry and porous." That pretty much tells the story about why we have the Kirtland Warblers here in Crawford County.

member, self included, will be developing a strong sense of self-worth.

This Monday evening we will be discussing our own beliefs about parenting. We'll be looking at survey results indicating how many parents feel about traditional beliefs regarding parenthood, and we'll talk about how these beliefs affect the way I talk with and act toward my children.

You are invited to join our discussion this Monday evening at 7:30 at the Holiday Inn in Grayling.

abilities and readiness levels of the units. "They determine if we're satisfactory or not satisfactory," General Lamoreaux said. "There's no in-between."

Specific activities at training include the construction of a medium girder bridge by the 1432nd Engineer Detachment, headquartered in Wyoming. The unit is the first reserve component in the U.S. to receive such a bridge.

The bridge can be assembled by hand in two hours and used to carry heavy equipment.

Infantry and armor units will be training with the new TOW and DRAGON missiles, anti-tank weapons that can be carried on jeeps. The sophisticated missiles cost about \$3,000 each.

"But we think we're saving the taxpayer money because we can knock out a \$1 million tank eight out of ten times," General Lamoreaux said. "It's a tank killer."

General Lamoreaux added that much of the training on the laser beam guided TOW and DRAGON missiles would be done with simulator to reduce the cost of training.

LMPOA To Hold Election July 7

Special to The Avalanche

The annual election meeting of the Lake Margrethe Property Owners' Association will be held at 10 A.M. Saturday, July 7, instead of June 30 as reported last month. The meeting site remains the St. Francis Episcopal Church hall, President James M. Rifkin has announced.

Rifkin said directors will meet at 9 a.m. in advance of the general membership meeting, then reconvene briefly afterward to elect officers.

A major agenda item will be an intensive membership recruitment drive, he said.

Three of the nine-member board of directors are elected by the membership annually, for three-year terms. Directors whose terms are expiring in July are S.J. "Batch" Anderson, one of the Association's founders in 1968 and treasurer ever since, Edgar Lobdell, completing his first term as director, and Andrew F. Wilson, who has served two terms.

Current officers whose one-year terms are expiring, in addition to Rifkin and Anderson, are Clarence C. Brenner, vice-president, and Mrs. Sue Brenner, secretary. Mrs. Loll Anderson serves as volunteer membership secretary on a year-to-year basis.

for the Board of Education, received a plaque for 15 years of outstanding service to the school district. Smock served on the board from 1964 to 1979, but did not run for re-election this year.

The board was presented with the high school and middle school yearbooks. This was done so they could have a record of their accomplishments for the 1978-79 school year.

The board also discussed the purchase of land for a Building trades house but did not come to a decision.

Accepted the bid of \$3,000 from Milltown Refuse for refuse service during the 1979-80 school year.

Adopted to join the Michigan High School Athletic Association Inc. for the 1979-80 school year. This is a routine procedure for school districts in the state.
